

## Thanda Tented Camp

Thanda Tented Camp is situated on the slope of a hill, the tents have spectacular views of the reserve, and offer guests an authentic bush experience. The camp has no electricity, guests can opt to have their meals in the dining tent or around the boma fire. Without compromising luxury or service, the camp offers guests an opportunity to get closer to nature in style. Each of the four luxury tents has a viewing deck, a spacious bathroom with a shower.

Thanda Private Game Reserve aims to restore nature's balance by reintroducing species endemic to the area, as well as the Big Five. The rehabilitated land has encouraged the bird and wildlife to flourish, and has assisted in the re-establishment of the natural ecosystem. Game drives in the open game viewing vehicles and bush walks guided by knowledgeable and experienced game rangers and trackers afford guests a better understanding and appreciation of South Africa's wild heritage.

For those guests who would prefer to savour the peace of the luxury bush retreats, enjoy the stillness of the stars above you with the privacy of your own outdoor fireplace, or a variety of relaxing therapies and beauty treatments offered by the wellness centre.
